Prof. Dr. Amelie Wuppermann  
*University Halle-Wittenberg*

The universities of Hannover, Bremen, Braunschweig, Göttingen, Halle-Wittenberg, Lüneburg, Magdeburg, Oldenburg and Osnabrück invite to the 5th workshop on Applied Economics. The workshop addresses young researchers from the participating universities in the realm of applied economic research. Graduate students, postdocs and junior professors have the opportunity to discuss their work intensively as well as to network. Apart from discussing current research, we plan a scientific keynote session and a keynote session by the Bundesbank.

The workshop is held in English. Every presentation is accompanied by a discussion, such that all submitters are expected to take on a discussion. Travel and accommodation costs will be covered for accepted speakers. All those interested are cordially invited to attend the workshop, even without presentation. Participation is free of charge.

Discussion papers or extended abstracts can be submitted via mail to [conference@wipol.uni-hannover.de](mailto:conference@wipol.uni-hannover.de) by March 26<sup>th</sup>. Acceptance will be announced in early April.

Further information is to be found at the homepage of the [Institute of Economic Policy](https://www.wipol.uni-hannover.de) of Leibniz University Hannover.
